

Basic Nature Photography Workshop 9/27 & 9/30

LEARN TO CAPTURE FALL COLORS, AND OTHER SKILLS THAT WILL HELP YOU TAKE BREATHTAKING PHOTOGRAPHS OF NATURE.

TOM MARTIN, MASTER PHOTOGRAPHER - PHOTOGRAPHING OUR NATURAL WORLD

Topics will include: knowing your camera, exposure techniques, depth of field, motion, composing for impact, and more.

When? The Workshop includes two sessions of instruction: Wednesday, September 27th, from 6 until 9pm at the studio where we'll discuss camera techniques and composition, and then on Saturday the 30th of September we'll be out in the field photographing from 8:00 am 'til 1 pm.

Who should attend? Anyone who loves photography and the great outdoors, and wishes to learn new techniques and improve their photographic skills, will find this workshop very beneficial. Individual attention in the field, and a limit of 10 participants, will make this appropriate for skill levels from basic to intermediate.

What equipment do I need? The camera you are currently using will be fine. Tom will help you get the most out of the equipment you own, but he will also offer advice on equipment that is best suited for this type of photography.

What will we be doing? Wednesday's session will be at the studio where Tom will discuss both the technical and compositional aspects of photography - bring your camera because this will include hands-on exercises. Since Tom believes in learning by doing, on Saturday most of the time will be spent photographing on location. Tom will pick two or three locations, such as a stream, woods, waterfall, landscape - places that will provide opportunities for interesting images and fall color. At each

location he will offer guidance and suggestions to the group and then will work with each participant individually while they pursue their own particular interest. Then it's back to the studio for a helpful critique of the images you've taken. Tom will view your images and offer further suggestions on how to improve your photographic skills.

What is the Workshop fee? The workshop fee is \$75 when paid by 9/18, or \$85 if paid after 9/18. Only 10 participants will be accepted, on a first-come, first-served basis. To register please call 716-372-1035. Payment is due at the time you register. Refund Policy: In the unlikely event that Tom Martin has to cancel this workshop, a full refund will be given to all participants. Cancellations made at least 7 days prior to the event will receive a refund of moneys paid less \$35, a full refund will be made if the cancelled spot is filled. No refunds will be given for cancellations less than 7 days prior to the workshop, unless the cancelled spot is filled.

What if the weather doesn't cooperate? Unpredictable weather is a part of the Natural World, but if we're experiencing a hard rain or unsafe conditions on the 30th then we will reschedule to our **rain date of October 7th.**

Who is Tom Martin? Tom, and his wife Kathy, own Martin Studio of Photography in Allegany, NY. A passion of Tom and Kathy is creating and selling original fine art images of our natural World. Tom's creative vision is translated to print through the fine art printing talents of Kathy. Tom has a Bachelor's degree in photography from RIT, and has been awarded the Master of Photography degree by the Professional Photographers of America. His awards include the Fuji Masterpiece (twice), New York State's Court of Honor and the Professional Photographers of America's Loan Collection. He has taught photography to both fellow professionals and hobbyists.
